- **Frameworks and Libraries:** Laravel, Vue.js
- **Web Technologies:** HTML, CSS, JavaScript, AJAX
- **Version Control & Tools:** Git, GitHub, Postman
- **Web Services:** RESTful APIs, SOAP APIs

- **Cloud Platforms:** AWS (EC2, S3, RDS)
- **Databases:** Relational: MySQL, PostgreSQL
- **Automation Testing**: Laravel Dusk, Cypress
- **Tools and Platforms:** AWS, Postman, Git, MySQL, Maven, Git

LICENSES & CERTIFICATIONS

- Introduction to Networking *[CCNA (Cisco Certified Network Associate)]* - 2023
- Introduction to Database and SQL *[Great Learning]* - 2024
- Linux-Ubuntu *[Chegg Certification]* - 2024

PROJECTS

ERP Software Module Development – T Cube The Think Tank Solutions

- Developed and debugged modules for ERP systems used in educational institutions.
- Implemented features like Dashboard, Gantt Charts, and analytic charts.
- Performed manual testing by thoroughly verifying that each page and field functioned as expected, focusing on user interactions, data entry fields, form submissions, and navigation.
- Identified and reported bugs and issues related to UI elements, fields, buttons, and overall flow, working closely with the development team to ensure issue resolution.

Kanban Project – T Cube The Think Tank Solutions

- Contributed to developing a Kanban board application for managing tasks and workflow, helping users track project progress through different stages.
- Implemented core features like task creation, drag-and-drop task movement, task categorization, and priority setting.
- Integrated backend logic to save and retrieve task data from the database, with a smooth user interface for easy interaction.
- Focused on real-time updates using WebSockets or similar technologies to reflect task changes across users instantly.
- Emphasized a responsive design, ensuring the application worked well on both desktop and mobile devices.
- Gained hands-on experience in Agile methodologies, managing tasks and deadlines within the project management framework.
